LinkedIn: linkedin.com/in/refilwe-motaung/ | Portfolio: refilwe-motaung-portfolio.vercel.app/

PROFESSIONAL SUMMARY

Entry-level UX and frontend development candidate with the Google UX Design Professional Certificate and SheCodes Foundation training in HTML, CSS, JavaScript, and React. Has built web application projects and studied user-centred design methods, including research, wireframing, prototyping, and usability testing. Brings previous professional experience in quality assurance, financial services administration, and process-driven operations, with a strong focus on accuracy and structured problem-solving.

TECHNICAL & UX SKILLS

Frontend Development: HTML5, CSS3, JavaScript, React, Bootstrap, responsive interface fundamentals

UX Design: User research fundamentals, problem statements, personas, user journeys, wireframing, prototyping, usability testing, iterative design

Development & Design Tools: Visual Studio Code, Figma (foundational), Axios and API integration (project experience)

Professional Strengths: Quality checking, attention to detail, structured problem-solving, documentation, collaboration, client communication

SELECTED WEB PROJECTS

E-Commerce React App - Developed a React-based e-commerce application, focusing on clear product presentation and an organised shopping interface.

Weather Dashboard - Built a React weather dashboard using Axios and the OpenWeather API to retrieve weather information and display forecast data.

AI-Powered Smart Planner - Created a smart-planning application interface designed to help organise tasks and present planning information clearly.

Recipe Finder App - Built a React application for recipe discovery, with an interface that organises recipe information for users.

EDUCATION & CERTIFICATIONS

Google UX Design Professional Certificate | 2026

SheCodes Foundation - Front-End/Web Development Training | 2024-2025

Introduction to Artificial Intelligence | Coursework

National Diploma in Public Finance and Accounting | University of South Africa (UNISA), 2012

PROFESSIONAL EXPERIENCE

Fund Administrator | Liberty Corporate | Jun 2020 - Jul 2021

- Administered a portfolio of more than 100 pension fund schemes, including monthly billing statements, scheme anniversaries, broker changes, and fund terminations.
- Responded to client queries, coordinated meetings with clients and department leaders, and liaised with IT and Finance when support was required.

Quality Assurer - Business Banking | First National Bank (FNB) | Jun 2016 - Oct 2016

- Checked business banking accounts for compliance with Know Your Customer (KYC) requirements.
- Used Microsoft Excel to support administrative and quality assurance activities.

Multi-Skilled Consultant - Retail Banking, Back Office | First National Bank (FNB) | May 2014 - Apr 2015

- Supported branch operations, including coordination with SBV for cash collections and deliveries, teller opening and closing routines, and ATM cash-loading activities.
- Handled card collection services and statement printing, assisted clients with foreign exchange applications and transactions, and followed branch security and record-keeping procedures.

Reception and Finance Administrative Support (Part-Time) | The Electoral Institute for Sustainable Democracy in South Africa | May 2010 - Dec 2013

- Performed reception duties and assisted the finance department with data capturing using Microsoft Excel and Outlook.

Data Capturer - Temporary Election Assignments | The Elexions Agency | Jun-Jul 2011 and Jun-Jul 2013

- Captured vote-counting information in Microsoft Excel during elections for the GEMS Medical Aid Scheme Board of Trustees.

ADDITIONAL INFORMATION

Professional background includes regulated financial services operations, data handling, quality checks, administrative coordination, and communication with clients and internal teams. Interested in junior opportunities where frontend development skills and user-centred design knowledge can contribute to useful digital experiences.
